1 System Configurations and Settngs

1.1 redis-server

1.1.1 configuration

Details about the configuration file and what was needed to make redis function properly

1.1.2 operation

Details about running the redis server (IIRC this was a service that automatically run on startup)

1.2 Ubuntu Server Firewall

stuff goes here

1.3 Network Configuration

stuff goes here

2 Operational Procedures

2.1 The RFSOC

2.1.1 Connecting to the RFSOC via SSH

Stuff goes here

2.1.2 Starting the KIDPY-Redis control listener

Stuff goes here

2.2 Intermediate Frequency (IF) Slice

stuff goes here

3 General Notes
